

Lipo Laser Consent and Release Form

Name: (First) _____ (Last) _____ DOB _____

A. Programed and background

You have requested to be treated with the Lipo Laser low-level laser therapy manufactured by suslaser. This treatment is the application of a 635nm low intensity laser, wich has been shown through extensive research to cause the fat within the adipocyte (fat cell) to leave the cell and accumulate in the interstitial space around the cells. In contrast to high power, high heat laser that are used in various medical procedures, the low-level laser used for this treatment has no thermal effect on tissue. Instead, the non-invasive laser helps the body absorb fat by stimulating its biological function. Excess fat is then removed naturally by the body's lymphatic system and subsequently excreted without the negative side affects and down time associated with more invasive procedures such as liposuction. This therapy has been tested in several institutional review board approved studies in a double blind; placebo controlled fashion and found to be generally effective. Any medical or cosmetic procedure carries risk, complications and varied results as to the effectiveness of a particular treatment. The purpose of this document is to make you aware of the nature of this product and its risk in advanced so that you can decide whether to go forward with this procedure.

The FDA has approved non-invasive low-level laser therapy

B. Procedure

Initially you will consult with the doctor to determine if you are a canidate for low-level laser therapy. During this time period, you will have the opportunity to ask questions or voice concerns you may have concerning this treatment. If it is determined you are a candidate for this procedure, there will be a few preliminary steps consisting of: paperwork, and measurements. Proceeding, the patient will need to expose the area to be treated and lie down. From here, the treatment will be administered by placing 4-8 635nm low-level laser paddles on the desired area(s) to be treated.

It is recommended that a patient will need a minimum of six treatments for the low-level laser to achieve its potential effect. This treatment should be used in conjunction with a fat melting diet and exercise. If you are not currently exercising you should consult with the doctor before beginning an exercise program to determine if your body is the physically able.

C. Risks/Discomfort

There are a few risks associated with low-level laser therapy. This treatment is non-invasive and uses cold output laser.

During treatment, no discomfort will be present, the patient will not feel the laser, and however the light will be visible.

* Please inform us if you are pregnant, or are unsure if you may be pregnant, as a pregnancy test may be required to proceed with treatment. Although no detrimental risks exsist, potential unknown risks may exist. If you have a pacemaker, this treatment may not be right for you. It is recommended that one does not treat directly over a pacemaker or its lead wires. Please inform us of any metal that you have in your body. No known risks exsist, however potential unknown risks may exist. There is also a variety of other conditions for this treatment. It is possible that you may not see any improvement in your body shape or it may get worse.

There also may be unknown risks associated with low-level laser therapy.

_____ Initial

D. Benefits

Over the years, benefits of low-level laser therapy have become more prominent. Low-level laser therapy has been used by chiropractors for pain management and recently by cosmetic surgeons to emulsify adipose before liposuction with FDA approval. The potential benefit of this treatment is body contouring without surgery. Problem areas or excess pockets of fat can be targeted, however the most commonly treated areas are the stomach, hips, thighs, and flank. In clinical trials, patients have averaged 4.5 inches lost from their stomach, hips and thighs. These results do vary and no guarantee is implied or suggested that desired results will be achieved.

E. Alternatives

This is strictly voluntary cosmetic procedure. No treatment is necessary or required. Alternative treatments, which vary in sensitivity, effect, duration, and invasiveness include: liposuction, mesotherapy, ultrasonic cavitation, lipodissolve, velasmoth, dieting, exercise, and potential others; which may have their own risks and benefits. You acknowledge this, and realize that the other option to you is do nothing.

F. Questions

By signing below, you certify that this procedure has been explained to you and your satisfaction. Any further questions can be directed to Dr. Neil Hollander.

G. Consent

I have reviewed this consent form. My consent and authorization for this procedure are strictly voluntary. By signing the informed consent form, I grant authority for Dr. Neil Hollander to provide the described treatment or administer any related treatment as deemed necessary or advisable for my medical condition. The purpose of this procedure, risks, complications, alternative methods of treatment have been fully explained to my satisfaction.

Cosmetic indications for these procedures include but are not limited to cellulite reduction, treatment of problem fat areas, skin tightening, and skin rejuvenation. You may experience increased redness to the area for up to 12 hours. You will be able to return to most normal activities following the treatment.

I have been informed of the potential risks and side effects of Lipo Laser including but not limited to redness, swelling, heat sensitivity, pain, increased bowel movements, increased urination, increased menstrual flow and flu like symptoms. The nature of the proposed procedure, the risks, potential damages, and adverse side effects have been explained to me and I fully understand.

_____ Initial

I understand that I agreed to a minimum of 6 treatments and as many as 10 every other day for two weeks without a 72-hour interruption to achieve full results. At this point, I will be reevaluated to see if more sessions are needed in order to achieve realistic goals. Patients who are extremely thin may require fewer treatments, while heavier patients may require more. I understand that the treatment is most successful if I also maintain a fat melting diet and commit to an exercise program. I know that if after the treatment course I gain weight, the results of the Lipo Laser may be reversed. I know that if I no show (no call no show) for any of my scheduled appointments that I will lose all of my future scheduled appointment spots and will have to reschedule all future appointments.

_____ Initial

I understand that while receiving Lipo Laser, Ultrasound Cavitations, or Colon Hydrotherapy I will be a patient of Dr. Neil Hollander/ Hollander chiropractic Center who is acting as an independent contractor providing services for Veda Health.

_____ Initial

I understand that while receiving body wraps, LPG endermology treatment and any massage I will be a patient of Veda Health center.

_____ Initial
